You have requested an electronic copy of your medical records. CIOX Health will, under agreement with this healthcare provider, facilitate the release of your records based on your access request.

You will receive an email from CIOX Health, at the email address you have provided, that will include detailed instructions on how to access your electronic records via a secure web portal. Once you have received the email notification from CIOX Health, the medical record will be available via the web portal for 90 days. If the record is not accessed during that timeframe, it will be deleted from the portal. If you need the record after that time, you must resubmit your access request to the healthcare facility.

To access the record electronically your computer must meet or exceed these requirements:

- Windows or Mac platform
- Pentium 3 or mac G3 or higher
- At least 128 MB of RAM
- Internet Explorer 6.0 or 7.0 with 128-bit encryption pack or Netscape 4.77
- At least 56K modem; however, DSL or T1 line is recommended
- Adobe Reader (latest version available free from www.adobe.com)
- 200 dpi (or higher) printer (for printing records)

Payment regulations vary from state to state, therefore, depending on the location of the medical facility that you requested records from, there may be a charge associated with this service. If that is the case, you may receive an invoice from CIOX Health along with the medical record.

If you have any questions or to check on the status of the medical record, please call us directly at (800) 367-1500, #4.

Kind Regards,
Ciox Health

Please provide me with the medical records described above through the CIOX Health eDelivery online service.

I understand and agree that:

- I must provide a valid email address, either of my own or that of my designated recipient.
- My records will be provided as Adobe PDF files on CIOX Health’s **eDelivery** website.
- I will receive an email from **CIOXHealth.com** containing instructions for accessing my records.
- There may be a fee for collecting my records. If so, an invoice will be included with the records.
- If I request that my medical records be sent to an unsecured e-mail address rather than through the CIOX Health eDelivery online service, I am accepting the risk of using unsecured e-mail. A non-exclusive list of risks associated with using unsecured e-mail for delivery of medical records is listed below.

RISKS OF USING UNSECURED E-MAIL FOR MEDICAL RECORDS DELIVERY

Email is inherently unsecure unless it is fully encrypted requiring the use of strong authentication and password protection. Most email does not meet those standards. As a result, when we send your medical records by unsecured e-mail, the information that is sent is not encrypted. This means a third party may be able to access the information and read it since it is transmitted over the Internet. In addition, once the email is received by you, someone may be able to access your email account and read it. Below are some, but not all, of the many risks of using email to communicate sensitive medical information:

- Email can be forwarded, printed, and stored in numerous paper and electronic forms and be received by many intended and unintended recipients without your knowledge or agreement.
- Emails may be sent to the wrong address by any sender or receiver.
- Email is easier to forge than handwritten or signed papers.
- Copies of email may exist even after the sender or the receiver has deleted his or her copy.
- Email service providers have a right to archive and inspect emails sent through their systems.
- Email can be intercepted, altered, forwarded, or used without detection or authorization.
- Email can spread computer viruses.
- Email delivery is not guaranteed.
- Email can be used for Phishing. Phishing is a technique of obtaining sensitive personal information from individuals by pretending to be a trusted sender.
