_TARGET-AUDIENCE-

This conference is designed for pediatricians, family practice physicians, ARNPs, PT, OT, SLP, nurses, and other health care professionals involved in the evaluation, diagnosis, and management of pediatric patients.

_Contributors-and-Exhibitors_

This conference is supported in part by educational grants in accordance with ACCME standards and all conference supporters will receive acknowledgement.

_Faculty-Disclosure_

Faculty at Lee Health will disclose any real or apparent conflict of interest related to the content of the presentation. Faculty will also identify any off label or investigational uses discussed as such.
Learning objectives

Participants will be able to:
• Gain an understanding of evidence-based rational exclusion and return to care criteria for children with mild infections in child care and schools
• Discuss articles from the recent Pediatric literature
• Apply advances described in the recent literature to Pediatric practice
• Discuss the common disorders of the urinary system in the pediatric population
• Define food allergy. Review current diagnostic approaches for patients with suspected of food allergies and understand current treatment modalities and management of food allergies
• Understand the medical indications for circumcisions beyond the newborn period
• Understand guidelines for ordering scrotal ultrasounds for boys with an undescended testis based upon literature guidelines
• Clarify differences between FDA licensure of and ACIP recommendations for vaccines
• Highlight lessons learned making vaccine recommendations
• Stress the importance of herd protection (community immunity)
• Review recent vaccine recommendations
• Describe Infectious Diseases Society of America (IDSA) guideline development
• Apply IDSA guidelines to diagnosis and management of children and adults with diarrhea
• Discuss the top 10 pediatric infectious disease articles of 2018
• Identify common problem behaviors of young children and assessment in primary care
• Discuss prevention of child maltreatment
• Understand what Long-Acting Reversible Contraceptives (LARC) are as well as their common side effects
• Identify contraceptive and non-contraceptive benefits of LARC
• Describe how new medications for Cystic Fibrosis provide new hope

Accreditation

Lee Health designates this live activity for a maximum of 11 AMA PRA Category 1 Credit(s)™. Physicians should claim only the credit commensurate with the extent of their participation in the activity. Successful completion of this CME activity, which includes participation in the activity, with individual assessments of the participant and feedback to the participant, enables the participant to earn 11 MOC points in the American Board of Pediatrics’ (ABP) Maintenance of Certification (MOC) program. It is the CME activity provider’s responsibility to submit participant completion information to ACCME for the purpose of granting ABP MOC credit. Lee Health is an approved provider of continuing Nursing Education (FBN2151). Lee Health has applied for 11 contact hours for this conference. Lee Health Rehabilitation Services is an approved provider of #50-20350 with the Florida Department of Health, Board of Physical Therapy Practice, Board of Occupational Therapy Practice and Florida Board of Speech-Language Pathology and Audiology. Lee Health designates this live activity for a maximum of 11 contact hours for PT, OT, and SLP.
